## Corporate Overview

A diversified industrial company with operations in **Aerospace, Propulsion, Metal Coating, Specialty Chemicals, and Other Products**, Sequa holds positions of leadership in key markets served.

## Sequa at a Glance

Sequa's largest business unit is Chromalloy Gas Turbine, one of the world's leading suppliers of advanced repairs for jet engine parts -- repairs that extend the life of the parts and hold down airline maintenance costs. Chromalloy operates around the world and around the clock -- providing airlines with timely, cost-effective, and proven repairs for turbine airfoils and other critical engine parts. For more information on individual Chromalloy operations, visit these additional web sites: [chromalloy-caz](http://chromalloy-caz), [www.chromalloy-cla.com](http://www.chromalloy-cla.com) and [www.chromalloy-cnv.com](http://www.chromalloy-cnv.com)

With a technology base built over five decades, ARC Propulsion ranks as a pioneering developer of solid, liquid and airbreathing rocket motors for defense systems, as well as for commercial and military space propulsion. ARC brings space age technology down to earth with an Automotive Products unit dedicated to providing airbag inflators for driver, passenger and side impact applications.

A leader in the application of protective and decorative coatings to coils of steel and aluminium, Precoat Metals provides speedy, dependable service and the highest standard of quality to a broad base of industrial customers across the country.

Specialty chemicals producer, Warwick International, supplies the international marketplace with additives for consumer and industrial uses. The company's trademark product, known by its chemical initials, TAED, and widely used as a bleach booster in home laundry and dishwashing products, is rapidly gaining prominence in textile, paper and other industrial applications.

A premier supplier to the global marketplace, MEGTEC Systems provides auxiliary press equipment, air flotation dryers and emission control equipment for printing and industrial applications.

Equipment from Sequa Can Machinery sets the standard for performance and value in the worldwide metal container market. Sequa Can supplies precision machinery to form and decorate two-piece metal cans at high speed -- and backs its products with world-class service and quality spare parts.

Casco Products, a global supplier to the automotive industry, produces cigarette lighters, power outlets and electronic control modules for cars, vans, sports utility vehicles and trucks.

158163

Tuxedos and other formalwear for men from After Six Inc. include three major labels -- Raffinati, Oscar de la Renta and After Six -- that feature both classic and contemporary styles.
